Versión Web

Acceso

MENDELEY Los gestores bibliográficos son programas que permiten crear automáticamente las citas y la bibliografía en los trabajos académicos con un formato normalizado (APA, MLA, Harvard...). Mendeley es un gestor de referencias libre que combina una versión local o de escritorio (Desktop) con una versión Web e incorpora funcionalidades de la Web social, organiza la información bibliográfica, adjunta los documentos a texto completo, es un espacio de colaboración para grupos de investigación...

Acceso a Mendeley | Cómo crear una cuenta | Migrar desde RefWorks

Qué posibilidades ofrece Mendeley

- Crear su propia biblioteca digital: captura, organiza, anota, almacena, completa y comparte sus referencias automáticamente: introduce el DOI, PubMed, o ARXiv ID y localiza referencias para añadir la información que falta...
- Agrupar documentos de diferentes recursos
- Construir su red de colegas
- Colaborar, discutir, describir
- Conocer las tendencias en investigación
- Elaborar la bibliografía

Conozca Mendeley

Getting Started with Mendeley

Contacte con la biblioteca

Migrar desde RefWorks

Si utilizaba RefWorks, debe saber que el próximo mes de mayo de 2015, caducarán todas las cuentas de la Universidad de Sevilla. Por ello, es importante migrar lo antes posible las referencias que tenga en RefWorks a Mendeley u otro gestor bibliográfico.

- Cómo exportar de Refworks a Mendeley

Mendeley Institucional

The screenshot shows the Mendeley Institutional interface. At the top, the Mendeley logo is on the left, and the user's name 'Juan-Antonio Barrera...' is on the right. Below the logo, navigation tabs include 'Dashboard', 'My Library', 'Papers', 'Groups', and 'People'. A search bar is located to the right of these tabs. The main content area features a group profile for 'Universidad De Sevilla' with a 'Join this group' button. Below this, there are sections for 'Recent publications' and 'About this institution'. The 'Recent publications' section lists two items: 'Mendeley Trainers follow up' and 'Training Program for Mendeley Step by step program'. The 'About this institution' section identifies the owner as Massimiliano Bearzot and lists 'Social Sciences' as the field. It also shows '3 members' and options for 'Group support' and 'Leave this group'. An 'Authors' section at the bottom lists 'Massimiliano Bearzot' with '5 readers'.

Ranking journals : Could Google Scholar Metrics be an alternative to Journal Citation Reports and Scimago Journa...

Authors: E. Delgado-lópez-cózar, Á. Cabezas-clavijo

Journal: *Learned Publishing*

Year: 2013

Volume: 26

Issue: 2

Pages: 101-114

Abstract:

The launch of Google Scholar Metrics as a tool for assessing scientific journals may be serious competition for Thomson Reuters' Journal Citation Reports, and for Scopus' powered Scimago Journal Rank. A review of these bibliometric journal evaluation products is performed. We compare their main characteristics from different approaches: coverage, indexing policies, search and visualization, bibliometric indicators, results analysis options, economic cost and differences in their ranking of journals. Despite its shortcomings, Google Scholar Metrics is a helpful tool for authors and editors in identifying core journals. As an increasingly useful tool for rank...

Mendeley Desktop: importación

The screenshot displays the Mendeley web interface. At the top, the Mendeley logo is on the left, and the user's name 'José Manuel Vinagre' is on the right. Below the logo, there are navigation tabs for 'Dashboard', 'My Library', 'Papers', 'Groups', and 'People'. A search bar is located to the right of these tabs. The main content area is titled 'How it works' and contains four numbered steps:

- 1. Drag the "Save To Mendeley" button onto your Bookmarks Toolbar.** This step is illustrated with a callout box showing a browser window with a 'Save to Mendeley' button being dragged to the bookmarks toolbar. A blue arrow points from the button to the toolbar.
- 2. Find an article**
Search for articles in a wide variety of sites, such as those listed below.
- 3. Click the "Save to Mendeley" bookmark**
Click the "Save to Mendeley" bookmark you just created, and the article details will display on the right hand side of the page.
- 4. Review the details and Save**
If the details look ok, click the "Save" button.
Next time you sync Mendeley Desktop, any newly saved articles will appear in the "Recently Added" section.

On the right side of the interface, there is a dark grey box with the text: 'Web importer para capturar referencias con el navegador'. Below this, a callout box shows a browser window with a 'Save to Mendeley' button in the bookmarks toolbar. A mouse cursor is clicking on this button. Below the browser window, a small notification box shows '1 article found.' with a 'Save' button. The article details are: 'Two-photon laser scanning fluorescence microscopy' by Denk, W; Strickler, JH; Webb, WW (1990) Science vol. 248 (4951) p. 73-76.

Mendeley Desktop: importación

The image shows a Google search results page for the term "blogs". A grey speech bubble overlay reads "Web importer para capturar referencias con el navegador". On the right, a Mendeley Desktop window is open, displaying a list of 10 articles found. The search results on the left include:

Adult bone-marrow-derived mesenchymal stem cells are immunosuppressive and prolong the rejection of mismatched skin grafts in animals. We transplanted haploidentical mesenchymal stem cells in a patient with severe treatment-resistant grade IV acute graft-versus-host disease of the gut and liver. Clinical response was striking. The patient is now well after 1 year. We postulate that mesenchymal stem cells have a potent immunosuppressive effect in vivo.

Lancet 2004; **363**: 1439-41
See Commentary page 1411

Severe acute graft-versus-host disease (GVHD) after allogeneic stem-cell transplantation is associated with high mortality. Bone marrow contains pluripotent mesenchymal stem cells that form bone, cartilage, adipose tissue, and muscle. These stem cells are not immunogenic and escape recognition by alloreactive T cells and natural killer cells. Mesenchymal stem cells given intravenously have been well tolerated. Furthermore, they are immunosuppressive and inhibit the proliferation of alloreactive T cells. Preliminary reports of

A 9-year-old boy with acute lymphoblastic leukaemia in third remission received a transplant of blood stem cells from an HLA-A, HLA-B, HLA-DRβ1 identical, unrelated, female donor after conditioning with cyclophosphamide (120 mg/kg) and fractionated total body irradiation (3 Gy for 4 days). Immunosuppression included thymoglobulin (6 mg/kg) during the conditioning, followed by ciclosporin combined with four doses of methotrexate. On day 11 after allogeneic stem-cell transplantation, the patient developed a maculopapular rash of the thorax and back that progressed despite treatment with prednisolone (2 mg/kg daily). By day 22, the patient developed diarrhoea (>1000 mL per day) and abdominal pain requiring morphine. He stopped eating on day 24. Bilirubin and alanine aminotransferase concentrations rose (figure 1). Psoralen and ultraviolet-A light (PUVA) treatment (two to three times per week) for 3 weeks was followed by extracorporeal PUVA (one to four times per week) for 6 weeks. Infliximab (10 mg/kg) and dexamethasone (1 mg/kg) were also tried. By day 70, the patient had developed grade IV acute GVHD, including diarrhoea up to 20 times daily, and a bilirubin concentration of 250 mmol/L. He was treated for repeated bacterial, viral, and invasive fungal infections.

We chose the mother as donor, because she was readily available and because MHC-compatibility is not necessary for mesenchymal stem-cell immunosuppression.³ After ethics-committee approval and informed consent, mesenchymal stem cells were isolated as previously described.¹ Briefly, we isolated mononuclear cells from a bone marrow aspirate by Percoll gradient centrifugation (Sigma, St Louis, MO, USA). The cells were plated at a density of 3×10^7 cells per 175 cm^2 in polystyrene flasks in low glucose Dulbecco's modified Eagle's medium (Life Technologies, Gaithersburg, MD, USA) supplemented with 10% fetal

Figure 1: Bilirubin concentration (mmol/L) and Number of stools per day over time. The graph shows two data series: Bilirubin (solid line with black dots) and Stools (dashed line with open circles). Both series show a significant peak around day 24. The y-axis for Bilirubin ranges from 100 to 300 mmol/L, and the y-axis for Stools ranges from 10 to 25. The x-axis represents time. A vertical line at day 24 is labeled 'MSC $\times 10^6$ /kg'.

Mendeley Desktop: trabaja en grupo

Los grupos pueden ser privados o públicos

The screenshot displays the Mendeley Desktop software interface. At the top, there is a toolbar with icons for 'Add Documents', 'Delete Documents', 'Remove from Collection', 'Create Group', 'Remove Group', and 'Sync Library'. A search bar is located in the top right corner with the placeholder text 'Type here to search'. On the left side, a sidebar lists various collections, with 'Creatively named research papers' selected. Below the sidebar, there is a 'Filter by My Tags' dropdown menu with a list of tags including 'All', 'Buffy', 'evidence-based medicine', 'fun', 'lol', 'necrophilia', 'parachute', 'randomized controlled trial', 'stupidity', and 'Zombies'. The main content area shows the details of the 'Creatively named research papers' group, owned by 'stephen croome'. It includes tabs for 'Overview', 'Documents (32)', and 'Members'. A 'Share' button is visible. The group description states: 'Research papers with bombastic or interesting titles.' and 'This is an Open, publicly visible group and everyone can contribute. Its great for open discussion around a subject.' Below the description, there are three recent document additions: 1. 'Effect of background noise on food perception' by Juliet Rowley, added yesterday, with a comment and like. 2. 'Dreamboys, Meatmen and Werewolves: Visualizing Erotic Identities in All-Male Comic Strips' by Ricardo Vidal, added on 14th October, with a comment and like. 3. 'Parachute use to prevent death and major trauma related to gravitational challenge: systematic review of randomised controlled trials.' by William Gunn, added on 14th October, with a comment and like. On the right side, there is an 'About this group' section, a 'Members' list showing 31 members, and a link to the group's website: 'http://www.mendeley.com/groups/536621/creatively-named-research-papers/'. A button for 'E-mail to colleagues' is also present.

Mendeley Desktop: trabaja en grupo

Create Group...

Los grupos públicos sólo tienen referencias. Los grupos privados contienen el texto completo y las anotaciones.

Create a new group

Enter a group name...

Enter a group description...

Group Type **Private**

Share references and full-text files. Only group members can see the group, good for sharing in private.

Invite-only

Share references only. Public can follow the group only, good for sharing references or reading lists.

Open

Share references only. Public can become a member or follow the group, good for crowd sourcing reading lists.

Mendeley Desktop: trabaja en grupo

The screenshot shows the Mendeley Desktop interface for a group named "grupo de mendeley", owned by "you". The interface includes tabs for "Overview", "Documents", and "Members". Below the tabs, there is a search bar for "Search people in this group..." and an "Invite people..." button. The "Members" tab is active, showing a list of group members. One member, José Manuel Vinagre, is listed with a "Viewed" status, which is circled in red. The invitation was sent by "You" on March 25th, 2015. To the right of the member list, there are buttons for "3 members" and "Manage invites", along with refresh and delete icons.

Si el usuario ve la invitación, Mendeley nos avisa pero todavía la invitación no está aceptada

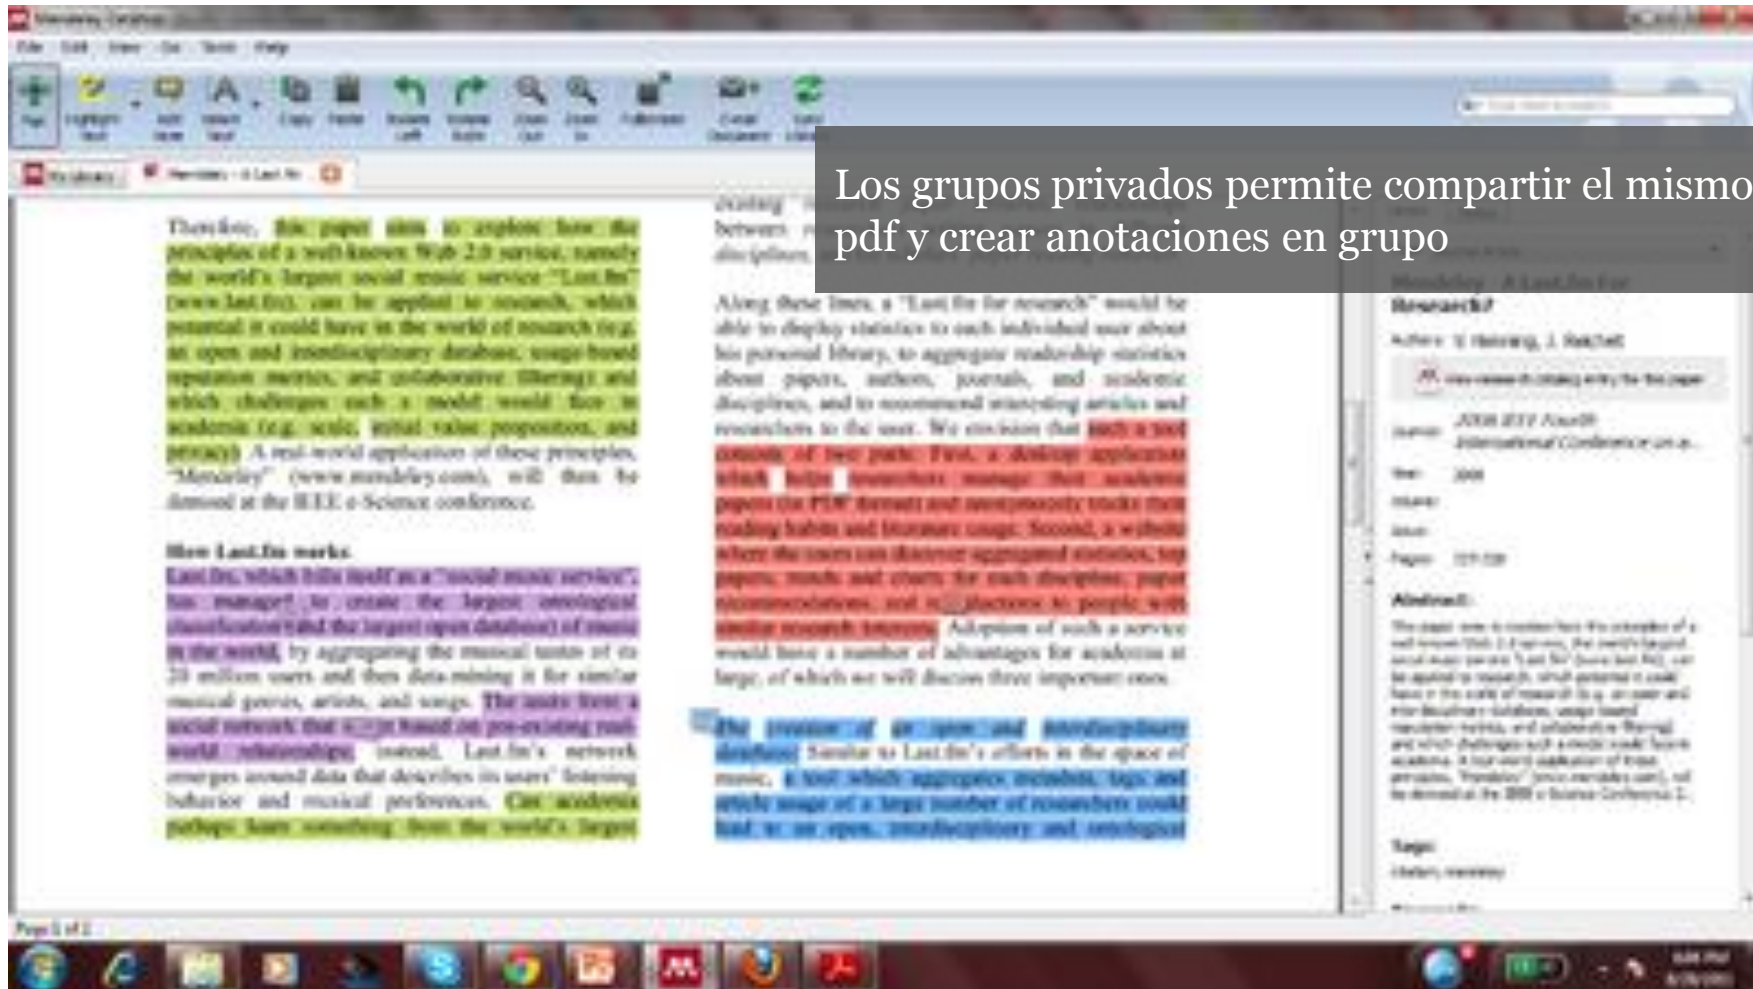

Mendeley Desktop: trabaja en grupo

Notificación recibida cuando se confirma la invitación.
Desde ese momento ya se puede trabajar en grupo

Mendeley Desktop: trabaja en grupo

The screenshot displays the Mendeley Desktop application window. The main pane shows a document with several paragraphs of text. Some text is highlighted in yellow, and other text is highlighted in purple. A sidebar on the right displays metadata for the document, including the author's name, the journal title, and the year. A text box is overlaid on the right side of the document, containing the text: "Los grupos privados permite compartir el mismo pdf y crear anotaciones en grupo". The Windows taskbar is visible at the bottom of the screen.

Los grupos privados permite compartir el mismo pdf y crear anotaciones en grupo

MENDELEY SUPPORT

Welcome

Can I change a public group to a private group?

Home

Groups

Can I change a public group to...

Unfortunately, it is not currently possible to change public groups to private or vice versa. You would need to create a new group and add the papers to it again. Apologies for any inconvenience this may cause you.

Antes de crear un grupo debemos decidir si es público o privado.

Dudas de este tipo se pueden solucionar en Mendeley Support: el foro de ayuda

Suggest

Mendeley Suggest

The screenshot displays the Mendeley Desktop application window. The title bar reads "Mendeley Desktop". The menu bar includes "File", "Edit", "View", "Tools", and "Help". Below the menu bar is a toolbar with "Add Files", "Folders", and "Share" buttons, and a search bar on the right.

The left sidebar contains a "Literature Search" section and a "Mendeley Suggest" section. Under "My Library", there are categories: "All Documents", "Recently Added", "Favorites", "Needs Review", "My Publications", "Unsorted", "alfin", "bibliometria", and "bibliotecas innovacion". Below this is a "Filter by Author Keywords" dropdown set to "All".

The main content area is titled "Mendeley Suggest" and shows "TOP PAPERS FOR JUAN-ANTONIO". It lists four suggested papers, each with an "Accept" and "Remove" button:

- Changing "Course": Reconceptualizing Educational Variables for Massive Open Online Courses**
Jennifer DeBoer, Andrew D. Ho, Glenda S. Stump, Lori Breslow in *Educational Researcher* (2014)
In this paper, we show that enrollment, traditionally measured as the number of students registered as a proxy for students who commit to complete a class, can be reconceptualized as differentiated tracts reflecting users' individual goals....
67 readers
- Making Sense of MOOCs: Musings in a Maze of Myth, Paradox and Possibility.**
John Daniel in *Journal of Interactive Media in Education* (2012)
Massive open online courses are free, open access and scalable online higher education courses. MOOCs use a variety of online resources (such as videos and message boards) and seek to capitalise on high volume student classes by encouraging peer...
264 readers
- Patterns of Engagement in Connectivist MOOCs**
Colin Milligan, Allison Littlejohn, Anoush Margaryan in *MERLOT Journal of Online Learning and Teaching* (2013)
Connectivist massive open online courses (cMOOCs) represent an important new pedagogical approach ideally suited to the network age. However, little is known about how the learning experience afforded by cMOOCs is suited to learners with different...
81 readers
- MOOC attack: closing the gap between pre-university and university mathematics**
Vanesa Daza, Nikolaos Makrivannis, Carme Rovira Riera in *Open Learning: The Journal of Open Distance*

On the right side of the application, there is a promotional banner for "Mendeley Suggest" featuring a hand holding a laptop. Below the banner, the text reads: "Mendeley Suggest is the most advanced filter for academic literature we've built yet. It suggests new papers based on your library and what similar researchers are reading." Below this is a section titled "How to improve your suggestions" with sub-sections: "Accept & remove suggestions" (Accept the things that you find interesting, remove things that are irrelevant, and Mendeley Suggest will learn from your actions.), "Add more papers to your library" (Add PDFs from your hard drive, Import from the web using our web importer, Search for papers in our extensive online catalog), and "Maintain a clean library" (We find similarities between users based on the metadata of items in your library. Ensuring that the core metadata such as title, abstract, authors, and year, are filled in for as many papers as you can, you increase the chances of us finding suggestions.).

The Windows taskbar at the bottom shows various application icons including Internet Explorer, File Explorer, VLC, Google, Firefox, Dropbox, a document icon, Mendeley Desktop, a network icon, and PowerPoint. The system tray on the right shows the language "ES", system icons for network, volume, and battery, and the date and time "20:51 24/03/2015".

The screenshot shows the Mendeley Desktop application window. The title bar reads 'Mendeley Desktop'. The menu bar includes 'File', 'Edit', 'View', 'Tools', and 'Help'. The toolbar contains icons for 'Add Files', 'Folders', 'Related', 'Share', and 'Sync'. On the left, there is a sidebar with 'Mendeley' (Literature Search, Mendeley Suggest) and 'My Library' (All Documents, Recently Added, Favorites, Needs Review, My Publications, Unsorted, and various folders like 'bibliometria', 'bibliotecas y estudiantes', etc.). The main pane shows a list of documents under the 'All Documents' tab, with columns for 'Authors', 'Title', 'Year', 'Published In', and 'Added'. A semi-transparent grey box is overlaid on the top right of the document list, containing the text: 'En un ordenador público tenemos que eliminar todos los datos de Mendeley desde **Help/Reset Mendeley Desktop**'. A dialog box titled 'Reset Mendeley Desk...' is open in the foreground. It contains the following text: 'This will reset all Mendeley Desktop settings and delete all of your locally stored data (This will not affect the data synchronized to your Mendeley Web account). If you are sure you want to do this, please type the following text into the box below:'. Below the text is a text input field containing 'I want to delete all my data'. At the bottom of the dialog are three buttons: 'Delete My Data', 'Cancel', and a button that is partially obscured by the text input field.

En un ordenador público tenemos que eliminar todos los datos de Mendeley desde **Help/Reset Mendeley Desktop**

Migrar desde RefWorks

Si utilizaba *RefWorks*, debe saber que el próximo mes de mayo de 2015, caducarán todas las cuentas de la Universidad de Sevilla. Por ello, es

importante migrar lo antes posible las referencias, que tenga en *RefWorks*, a *Mendeley* u otro gestor bibliográfico.
