

Revistas de Arquitectura, Construcción y Urbanismo en
la Biblioteca de la US:
Indicios de calidad

Octubre 2024

Apoyo la investigación. Biblioteca de Arquitectura

Esta relación de revistas facilita información sobre los indicios de calidad de las revistas de Arquitectura, Construcción y Urbanismo que forman parte de los fondos de la Biblioteca de la Universidad de Sevilla.

Sirve de apoyo a los investigadores en un doble sentido:

- Para elegir la revista donde publicar en base a su factor de impacto.
- Ayuda en los procesos de evaluación a localizar los indicios de calidad en las publicaciones que se presentan como aportación.

Hemos incluido la **Tasa de aceptación** de artículos en los títulos de revistas en que ha sido posible localizarse dato.

Cada título de revista está enlazado al catálogo Fama, de forma que en los casos en que sea electrónica se accede directamente a la revista.

Partiendo de los criterios que hasta ahora han utilizado las agencias evaluadoras, cada título refleja los indicios de calidad en tres columnas diferenciadas:

Factor de impacto

- **JCR (WOS)**, enlaza a la base de datos en FAMA.
- **JCI (WOS)**, enlaza a la base de datos en FAMA.
- **SJR (SCOPUS)**, enlaza directamente a la página de cada revista en SJR.
- **CiteScore (SCOPUS)**, enlaza directamente a la página de cada revista en el nuevo índice de impacto CiteScore de Scopus.

Bases de datos con valoración preferente en los procesos de evaluación.

- **Arts&Humanities (WOS)**, enlaza a la página de la revista en la Master Journal List del WOS.
- **AVERY Index to Architectural Periodicals (Columbia University)**, enlaza a la lista de revistas que se indexan en esta base de datos.

Otros indicios de calidad

- **ESCI (Emerging Source Citation Index)** nueva base de datos de WOS que engloba todas las revistas que están siendo evaluadas para entrar en la colección principal de Web of Science.
- **RIBA**: Catálogo de la Royal Institute of British Architects.
- **OTROS INDICIOS**:
 - **CIRC**: clasificación de revistas científicas de Ciencias Sociales y Humanas.
 - **MIAR**: analiza anualmente la difusión de cada revista en bases de datos y repertorios multidisciplinares.
